Remember when you could travel without worry? *You still can.*

Travel is more complicated than it used to be. But that shouldn't stop you – or your loved ones – from experiencing the world.

Introducing FoneTrac for individual travelers

Security concerns may threaten your peace of mind when you travel. With FoneTrac®, you can get it back. FoneTrac is a simple, intuitive, and affordable smartphone app for frequent travelers, students studying abroad and others traveling in the U.S. or overseas.

Available for iPhone, Android or Blackberry, FoneTrac offers:

- Global position locating with Panic Alert and Check-In functions you control to let family and friends know you are safe
- Help and advice 24/7 from a U.S.-based Emergency Response Center operated by real people
- Alerts and updates delivered straight to your phone to help you in a dangerous situation or natural disaster

Proven Technology

FoneTrac is a patented technology developed for corporate clients by IMG GlobalSecur. Business travelers have used FoneTrac for years to plan for and respond to every possible crisis. Now, GlobalSecur's proven service is available to individual travelers – including retirees and students.

Simple to Use

You can use FoneTrac anywhere you have a cellular signal or Wi-Fi hotspot. No special equipment is necessary.

- Simply download the app
- Enroll in FoneTrac
- Sign in and get started

Affordable Pricing

FoneTrac is available to individual travelers and families.
For more information, go to

www.fonetrac-go.com

Minimum subscription of 3 months. Offer price will remain unchanged for a continuous period subsequent to the initial sign-up.
FoneTrac does not monitor traveler locations continuously (except during an emergency). Traveler locations are updated on a world map each time users press the Check-In or "Panic Alert" buttons.

Who needs FoneTrac?

- Families or retirees who travel in the U.S. or internationally
- Students studying abroad or traveling overseas
- Anyone who travels anywhere
